

Environment Policy

CAROTINO SDN BHD fully recognizes that a high standard of environmental practices are essential for the welfare and morale of all stakeholders. In order to ensure preservation of the environment, Carotino is committed:

- To protect the environment including preventing adverse environmental impact through establishment of environmentally responsible facilities, practices and operational systems
- To provide necessary resources including information through environmental educational programs, suitable equipment, facilities and infrastructure
- To continually improve environmental practices within our premises
- To ensure effectiveness of environmental monitoring and control through the Environmental Performance Monitoring Committee (EPMC), Environmental Regulatory Compliance Monitoring Committee (ERCMC) and Guided Self-Regulation (GSR)
- To fulfill compliance obligations to Environmental Quality Act (EQA) 1974, and other relevant rules & regulations
